Tyson closed indefinitely today amid the positive test results and lack of work force reporting. But, Waterloo Tyson is their largest facility and indeed, Iowa does feed America and the world, the food supply just got smaller. No hogs have been harvested since last week

Does anyone know where I might find the video of the tree jumper? It was a viral vhs home video in the late 90's early 00's of a guy who wanted to be a stunt man. He tries to jump from one tree to another but doesn't make it.

I do not know what happening in Nebraska. I do know the test have been validated in Iowa. 95% accurate for positive test 99.7% for negative. The delay was due to the rigor and thought Iowa put into validation. The testing also cost 1/3-1/2 the national average and is scalable.

2/9 At @brexHQ we're deeply disappointed by this decision and we believe this will only reduce the US' ability to keep innovating. I wanted to share our view on how this will affect our industry.

3/9 @pedroh96 and I remember vividly how hard it was to get visas for ourselves and our early employees. So in building @brexHQ we created the most supportive immigration program we could imagine

4/9 We're proud to have been able to have sponsored 20% of our employees to come and work here in the US, investing ~$700k every year in support of this cause

Henrique Dubugras @hdubugras 7m

5/9 Last year, we opened an office in Vancouver to expand our ability to hire exceptional talent who otherwise would not be able to work at @brexHQ and have sponsored many Canadian visas to do so

Did you learn history from statues or from a book? Honestly
They could have eas ly been placed n a museum or made into an area to honor those impacted like Germany did with denazification
Most confederate statues were made well after the Civil War, by the way

I haven't spoken with @TheEllenShow and can only speak from my own experience. She & her team have only treated me & my team w/ respect & kindness. She never pandered to celebrity which I always saw as a refreshing honesty. When things aren't right she handles it and fixes.

I haven’t spoken with @TheEllenShow and can only speak from my own experience. She & her team have only treated me & my team w/ respect & kindness. She never pandered to celebrity which I always saw as a refreshing honesty. When things aren’t right she handles it and fixes.

      There are a lot more problems here than just loss of crop. Lots of people still don't have power and in more rural areas might not get it back for weeks. Also insane property damage. This storm was insane.

Please do something and help the cities of Cedar Rapids, Iowa City and Marion. You are in position to get the word out, help financially or whatever needs to be done. Just help. My bro is a firefighter in CR and my parents house was severely damaged like so many. #derecho2020

Counting every vote is at the heart of democracy. That process is often long and, for those running, frustrating. The votes will be counted. If there are irregularities alleged, they will be investigated and ultimately resolved in the courts. Have faith in democracy, in our Constitution, and in the American people.

Each photo/video of child sexual abuse is evidence of a crime involving real children. Every time an image is viewed, those children are re-victimized & their suffering is prolonged.

This is why INTERPOL works to remove #CSA images from circulation.

Tanya had a big deep hearty laugh. She was all instinct and beauty. In the first season of 70's we had a scene in the kitchen, drinking cocktails and laughing together. She laughed, spit her drink in my face, apologized profusely and did it 3 more times. I loved her. RIP beauty.

A 46% drop in reports of CSAM in the #EU since Dec. 21 is unacceptable. These tangible facts from @missingkids are proof to #EU lawmakers of what we lose if they don't immediately prioritize the privacy of child victims. We need an agreement to restore detection methods now

We did something a little crazy: we created a fake TP company. “Flush” may be fake, but the problem is real. This Earth Day, we are shining a light on the sad truth about the industry and our mission to save hundreds of millions of old-growth trees.

Being a compassionate, thoughtful leader means that sometimes the answer is No, even when others are in need. If we bankrupt our capacity it becomes impossible to power enduring generously. These are the moments strong learners ask individuals and entities to do for themselves.

Been cooking up something new in NFTs that I can finally start talking about!!! Before I dig into the what, I think it's important to understand the why...

It all started with the idea of decentralizing studios and cutting out the middle men.

4:42 PM · 18 Jun 2021

1

maaria bajwa @maariabajwa · 21s
What if fans could fund the content they wanted to see, and creators could retain control of their art while also participating in the value they're creating?

1

maaria bajwa @maariabajwa · 20s
It's not easy to take on studios. They control the content that's created and keep most of the value. But NFTs and communities like #BAYC gave us hope that it's possible to disintermediate studios and fund content directly from fans.

1

maaria bajwa @maariabajwa · 20s
So that's what we're doing. Mila's production studio wanted to make an animated series called Stoner Cats and we decided to cut the studios and go directly to the people. We'll be launching a series of Stoner Cat NFTs around the 6 characters in the show.

The world lost a beautiful man today. A man that had a joy for life, a joy for speed, a care and concern for others and a dedication to making people better after they had an interaction with him than they were before. Thank you Mike. I'm better for knowing you. We all are. RIP

@aplusk one of my favorite parts of that 70's show was when you all were sitting in the circle and you said " some people bake pies, we bake ourselves " I loved you guys That was an amazing show Even today, it still is to me I m glad you and Mila got married❤️
